

DESCRIPTION

A heavy duty tar and asphalt remover, especially formulated for the removal of tar and asphalt from all vehicles and equipment that comes into daily contact with tar, asphalt, roofing-tar, gear patch, oil slick, bunker carbon, etc. Penetrates and dissolves any tar or asphalt deposits from porous surfaces, metal, concrete curbs, islands, trucks and equipment. Removes Carbon Deposits. If bunker "C" fuel is used in steam generating plants, this product cleans engines and removes accumulated bunker carbon. Removes tar spots and asphalts on undercarriage of vehicles. Cleans Storage Tanks. Emulsifies cold asphalt in minutes.

TARGET

REMOVES TAR, ASPHALT, BITUMEN AND ASPHALT-BASED PLATIC CEMENTS, ALSO CARBON DEPOSITS.

USE FOR REMOVING TAR FROM TAR-MELTING EQUIPMENT, GRADERS, YARDERS, OIL TRUCKS, DUMP TRUCKS, STEAMROLLERS, BUSES, ASPHALT STORAGE TANKS, CRUDE OIL STORAGE TANKS, ROOF-TARS, FORM OIL (BEFORE PLASTERING OVER CONCRETE), SPOTS FROM WORK CLOTHES, SHOES, MOPS, BROOMS, ETC.

RINSEABLE WITH WATER

SAFE-LEAVES NO FLAMMABLE RESIDUE. ELIMINATES USE OF HIGHLY FLAMMABLE MATERIAL.

USE COLD

**CAUTION
 KEEP OUT OF REACH OF CHILDREN
 See additional Cautions on side panel.**

NET CONTENTS _____ GALLON(S)

DIRECTIONS

Apply to any surface in concentrated form by pouring, spraying or mopping. Allow five minutes to penetrate and emulsify the asphalt or tar. Rinse off with water under pressure. For light deposits or in a regularly applied maintenance program, dilute with equal parts of a solvent. (Kerosene or fuel oil). Eliminates tar bleed, by cleaning the concrete before painting. Where it is planned to brown-coat or plaster directly over concrete, use for the removal of form oil. Excellent for removing tar stains from bricks, concrete, mortar, cement, etc. Not recommended for use on passenger cars because it will dissolve protective wax coating on the paint.

CAUTION

Use with adequate ventilation. Do not take internally. If taken internally do not induce vomiting. CALL A PHYSICIAN IMMEDIATELY.

IF EYE OR SKIN CONTACT IS MADE, FLUSH WITH COLD WATER. KEEP AWAY FROM OPEN FLAME.
