Oven & Grill Cleaner "Heavy Duty Carbon Remover"

DESCRIPTION

EZ Gel is a USDA authorized caustic based oven & grill cleaner. Extra thick liquid formula clings to all surfaces for increased contact time to insure complete penetration and cleaning of cooking surfaces. Restores cooking surfaces to original shine. Removes even the most stubborn caked on food, grease, and baked on carbon. Works by first saponification (softening) of baked on fats and oils then dissolving carbon deposits so they can easily be wiped away
