

ECO-WORKS #300

HEAVY DUTY DEGREASER

Eco-Works #300 Heavy Duty Degreaser is the safest alternative to using chlorinated solvents for degreasing metal surfaces. This powerful degreaser is made from *renewable resources* and quickly dissolves and removes heavy deposits of grease and oil with its high pressure spray. Heavy flushing action dissolves and washes away contaminants leaving surfaces clean. Surfaces can air dry leaving negligible residue, or can be rinsed with water.

Eco-Works products are formulated to carry on Kayline's tradition of providing products that maximize performance, enhance user safety, reduce labor, and are economical. 21st century technology enables these products to be ecologically sensitive and work. Eco-Works products are guaranteed to out perform our competition.

FEATURES

- All Natural Ingredients
- Water Flushable
- 50% d-Limonene
- Extremely High Solvency
- Powerful Citrus Cleaning Action
- No Petroleum Distillates
- No Chlorinated Solvents
- V.O.C. Compliant
- No Toxic Fumes
- Non-Acid
- Non-Caustic
- Non-Corrosive
- Environmentally Safe
- Readily Biodegradable

EFFECTIVE ON

- Tar
- Grease
- Oil
- Brake Fluid
- Asphalt
- Adhesive
- Bug Marks
- Bird Droppings
- Road Tar
- Sealant
- Roofing Compound

FOR USE ON

- Metal
- Painted Surfaces
- Masonry
- Formica
- Fiberglass
- Porcelain
- Marble
- Tile
- Concrete
- Stone
- Engine Parts
- Road Machinery
- Roofing Equipment
- Concrete Driveways
- Mining Equipment
- Construction Equipment
- Agricultural Machinery
