Non-Flammable Aerosol Penetrant, Lubricant, Demoisturant and Protectant

DESCRIPTION

Helper is a fast acting PENETRANT that quickly cuts through dirt, rust and scale to creep into parts which have become frozen by or encrusted with corrosion and oxidation. Provides a long-lasting LUBRICANT which loosens dirt, rust and other corrosive elements. Reduces friction and will not become dry, brittle or hard. Prevents surface deterioration by acting as a DEMOISTURANT, which, with its unique molecular film, seals out water on all treated surfaces. A true multi-purpose spray PROTECTANT that provides a shield-like film against the harmful effects of moisture and corrosion.

FEATURES & BENEFITS

- **PENETRATES**—"Creep" character- istic allows deep penetration to remote parts.
- **LUBRICATES**—Low Coefficient of friction gives lubricity to metal-to-metal parts. Stops Squeaks.
- **HELPS REMOVE RUST**—Makes existing rust and corrosion easy to remove.
- **INHIBITS CORROSION**—Ultra-thin greaseless film protects metal parts and surfaces from attack by rust or corrosion.
- **DISPLACES MOISTURE**—Gets under moisture driving it to the surface where it evaporates.
- **CLEANS**—Detergent action loosens dirt, scale, corrosion, gummy deposits.
- **SEALS**—Seals by reducing friction and making tighter joints possible.
- **RESISTS MOISTURE**—Lubricates under wet or steamy conditions—will not "wash out."
- **TEMPERATURE STABLE**—Works at extremes of temperature.

- VOC Compliant
- Non-Flammable
- Non-Conductive
- Fast Penetration
- Never Dry Film
- Dielectric Strength—38,000 volts
