

# SALT FREE

K356

## Ice Melt Rinse Aid

**Salt Free** is a scientifically advanced salt/alkali neutralizer that eliminates residue on multiple surfaces.

### Floor Care

Removes ice melt and alkaline residue from hard and soft flooring. Leaves the floor properly conditioned and film free, ready to accept re-application of new floor sealer and finish. Excellent for use on a wide range of flooring including mineral (marble, slate, etc.) surfaces and concrete or quarry tile to remove hard water, detergent and uric acid (urine) deposits.

### Vehicle Care

Removes ice melt, road salt and alkaline residues from vehicles without harming paint or finished surfaces. Can also be used on the interior floors found in the cab and trailer to remove tracked-in salt residue.

### Neutralizing Rinse

After stripping or to neutralize ice melting compounds, dilute product 1/2 ounce per gallon of water. Rinse floor thoroughly. Allow floor to dry completely before re-applying seal and finish.

## FEATURES

- Neutralizes and removes road salt, ice melt, and detergent alkali.
- Chemically dissolves chalky residue without harming sensitive painted or finished surfaces.
- Provides a fresh scented, film free surface.
- Apply by spray, power washer, or mop & bucket.
- Highly concentrated - Dilutes 128:1.

## USES

Salt Spreaders • Hardwood Floors • Vinyl Floors • Metal Surfaces • Marble • Slate • Rugs & Carpets  
Vehicle Underbodies • Exhaust Systems • Concrete • Quarry Tile • Gas Tanks • Floor Boards  
Vehicle Frames • Carpet Extractors • Auto Scrubbers
