

K407 Cap-N-Trap

Sealer & Deodorizer

Cap-N-Trap is a uniquely formulated, environmentally friendly sealer designed for use in waterless no flush urinals. **Cap-N-Trap** creates a non-soluble seal for a deodorizing liquid in the trap. **Cap-N-Trap** also prevents unwanted sewer vapors from backing up thru the pipes and into the air. **Cap-N-Trap** has a pleasant cherry fragrance that gives an instant and long lasting fragrance to cover odor problems from dried out traps, keeping them wet and odor free. Easy to use, simply add it and forget it.

Directions: Waterless Urinals: Add 3 ounces of **Cap-N-Trap** directly into the urinal. When deodorizing no longer takes place, add another 3 ounces.

Dried Out Drains: Add 1 gallon of water, then add **Cap-N-Trap** as follows:

- < 2" Drains - Add 3 ounces of **Cap-N-Trap**
- 3"- 4" Drains - Add 6 ounces of **Cap-N-Trap**
- > 4" Drains - Add 9 ounces of **Cap-N-Trap**

As long as there is no additional large amount of water entering the drain, **Cap-N-Trap** will last indefinitely.
