

Top buff is a one-step system for cleaning and renewing finishes on floors. It is an advanced formulation of polymers, waxes and solvents which remove common buildup and renews the floor's finish in one operation. The product is usually applied by means of a spray mechanism attached to a single-disc rotary floor machine. Its fast-drying formulation makes it an ideal product for use in high traffic areas.

FEATURES

- ◆ **Gives Floors A Tough, Brilliant Shine** - *one-step system for cleaning and renewing floor finishes*
- ◆ **Easy To Use** - *simply dust the floor, spray on the buffing emulsion and burnish - the floors are clean and ready to reflect your positive image*
