

FRESH SCENTS AIR FRESHENING SYSTEM

Most Powerful & Versatile Deodorization System Available

Fresh Scents Air Freshening System provides the best results with the least amount of effort. The *Fresh Scent Cover* is the actual deodorant cartridge. Installation is simply slipping the cartridge onto the wall bracket.

The wall bracket contains a unique computer chip and program that runs the fan only when needed. Upon cover replacement, the fan will operate sparingly. Each week there will be an increase in fan operation. This assures 30 day uniform odor control. A light sensor stops operation when lights are off.

Fresh Scents Air Freshening System consistently releases the same level of air freshener over 30 days by controlling the fan. In week 1, then fan turns sparingly, and gradually turns more frequently until in week 4 the fan turns constantly. On day 30, the fan stops and the red LED blinks. If the cover isn't changed by day 33 a discrete audible alert will also sound.

FEATURES & BENEFITS

- Easy Installation - Simply slide cover over mounting bracket - takes just seconds.
- Battery included with each *Fresh Scents Cover*.
- Each cover is composed of a unique material containing twice as much fragrance as most other air fresheners which is released over 30 days.
- *Fresh Scents* covers are 100% recyclable.
- Covers use 80% less VOC than aerosols.
- Manufactured with over 50% less energy than typical plastic or steel containers.
- Continuously freshens for 30 days so you don't have the peaks and valleys (or the spritzing showers) of metered aerosols.
- *Fresh Scents* meets the "Purchase Of Sustainable Cleaning Products & Materials" criteria under the LEED point management system.
- Made in the USA

USES

- Restrooms
- Smoking Areas
- Baby Changing Stations
- Rest Areas
- Swimming Pools
- Treatment Plants
- Dumpster Rooms
- Nursing Homes
- Dog Kennels
- Locker Rooms
- Parks
- Schools
