

K43 PUNCH

Wasp & Hornet Killer – Powerful 20' Jet Stream

Insecticide Aerosols

This rapid knockdown and contact kill wasp, hornet and yellow jacket killer contains Permethrin and Tetramethrins synergized with Piperonyl Butoxide that literally stop pests in flight. Long-range 20ft. spray allows killing these insects while standing away from their nests. Together with the “instant knock down” effect, this prevents the chances of being stung by attacking insects. The powerful blast valve allows rapid delivery and saturation of nests. Acts as a barrier preventing insects from entering your facility.

Punch has a non-chlorinated formulation with a dielectric strength of 47.3 kV (47,300 volts). It may be used indoors or outdoors. The residual action of **Punch** will kill insects returning to treated nests days after application.

FEATURES:

- * Fast Acting - Kills On Contact
- * Kills With Residual Action
- * Jet Spray Will Reach Nests Up To 20 Feet Above Ground
- * Dielectric Breakdown Voltage of 47,300 Volts
- * Use Indoors & Outdoors

AREAS OF USE:

Walls, Chimneys, Decks, Garages, Trees & Bushes, Telephone Poles, Outdoor Lighting, Electric Poles, Farms, Attics, Building Exteriors

USED BY:

Schools, Hospitals, Hotels/Motels, Municipalities, Utilities, Landscapers, Industrial Plants, Contractors, Service Departments
