

K488 SANI 60

Instant Hand Sanitizer

Hand Care Liquids

Sani 60 skin sanitizer is a refreshing alcohol-based sanitizer that kills 99.9% of most illness-causing germs. Germs transferred by hands are the #1 reason people become ill. **Sani 60** is safe on hands, and you may reapply as often as needed. It does not replace handwashing to remove heavy soils, but it is an important step in keeping hands germ-free. Reduces workplace and school absenteeism by as much as 20%. Leaves skin smooth and conditioned.

DIRECTIONS FOR USE:

Place a “palmful” (5 grams) of product in one hand. Spread on both hands and rub into the skin until dry (approximately 1 - 2 minutes). Place a smaller amount (2.5 grams) into one hands, spread over both hands to wrist, and rub into the skin until dry (approximately 30 seconds). Will air dry in 15 seconds leaving hands clean and smooth.
