

# K74 ICE & SNOW BARRIER

## *Liquid Non-Corrosive Ice Melter*

## Winter Product Liquids & Pellets

**Ice & Snow Barrier** is a highly effective, easy to use, ice and snow melter. A great labor saver! Non-flammable, non-corrosive formulation.

**Ice & Snow Barrier** works well at the very lowest temperatures without leaving the residual white scum encountered with other ice melting chemicals.

**Ice & Snow Barrier** will not harm concrete, terrazzo, asphalt streets, drives or walks. Ideal for special emergency areas where prevention of ice is essential.

**Ice & Snow Barrier** is extremely easy to use. Do Not Dilute. For greatest economy, fill an ordinary garden type sprayer and apply to the surface. One gallon will cover approximately 800-900 square feet.

**Ice & Snow Barrier** will prevent bonding of snow and ice when applied 1-2 hours prior to storm. An additional application of **Ice & Snow Barrier** after snow accumulation will assure maximum coverage.

**Ice & Snow Barrier** has cumulative action as more product soaks into the uppermost layers of the surface, it will become even more effective in preventing ice and snow buildup.

### FEATURES:

- \* Easy To Use
- \* Applied Prior To Storm Helps Prevent Bonding Of Snow & Ice
- \* Leaves No Residue
- \* Works Effectively At Very Low Temperatures
- \* Non-Corrosive - Will Not Harm Surfaces
- \* Improves Safety By Preventing Costly Accidents

### USE ON:
